#### **DETAILED ACTION**

### **Specification**

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the specification does not use the word "polygon" to describe the cross-sectional geometry. It is accepted that a rectangle (as disclosed in connection with Fig. 2) is a polygon.

Page: 2

# **Claim Objections**

2. Claim 2 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 1 requires that the geometry be polygonal. It does not further limit that claim to permit, as claim 2 recites, that the geometry be circular (since a circle is not a polygon).

# Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the first paragraph of 35 U.S.C. 112:
  - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 4. Claim 2 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The specification does not describe a "cross-sectional polygon-shaped geometry" which is circular.

## Response to Submission(s)

5. The amendment filed January 20, 2005 has been entered.

## **Allowable Subject Matter**

- 6. Claims 1, 3, 6-16, 18, and 21-26 are allowed.
- 7. Applicant's arguments, see pages 7 and 8, filed January 20, 2005, with respect to Hempowitz et al. have been fully considered and are persuasive. The rejection of claims 1, 3, 6-16, 18, and 21-26 (as amended) has been withdrawn.

8. No statement of allowability can be made for claims rejected under 35 U.S.C. 112, first paragraph.

#### Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Constantine Hannaher whose telephone number is (571) 272-2437. The examiner can normally be reached on Monday-Friday with flexible hours.
